TRANSMITTAL OF THE PHASE I RESOURCE CONSERVATION AND RECOVERY ACT (RCRA)
FACILITY INVESTIGATION/REMEDIAL INVESTIGATION (RFI/RI) WORK PLAN FIELD SAMPLING PLAN
DRAFT TECHNICAL MEMORANDUM (TM)1 FOR OPERABLE UNIT (OU) 15 - DLS-008-94

Enclosed please find the draft TM 1 for OU 15 for submittal to the United States Environmental Protection Agency (EPA) and Colorado Department of Health (CDH). Concurrent reviews of draft TM 1 are scheduled by the Department of Energy, Rocky Flats Office (DOE, RFO), DOE Headquarters, EPA, CDH, and EG&G Rocky Flats, Inc. EG&G should receive comments on draft TM 1 on March 15, 1994. Your assistance in expediting the review process for draft TM 1 is greatly appreciated.

Based on the results of OU 15 Stage I field work inside buildings, presented in TM 1, EG&G recommends that no further action be taken at OU 15 Individual Hazardous Substance Sites (IHSSs). An exception is IHSS 204 (the Original Uranium Chip Roaster) which is still active. A Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) decision document may have to be prepared in the future. However, IHSS 204 may be closed with respect to RCRA. Additionally, EG&G recommends changing the requirements for the Phase I RFI/RI Report for OU 15 to a "No Further Action Justification" document to facilitate and accelerate closure of OU 15.

If you have questions regarding this correspondence, please contact me at telephone extension 8709.

Dennis L. Schubbe
Operable Unit 15 Project Manager
